Is this good?

[attached code]

There is a file you can reference named "Lab5_Companion_Guide.pdf". Refer to this file by its name verbatim.

[attached text]

Assistant Summary

Identified syntax errors, formatting alignment flaws, and logical issues regarding temporary array modifications in the submitted code. Provided a thoroughly refactored C++ implementation using standard vectors and `<iomanip>` to address the issues, alongside explanations referencing the provided companion guide.

Interaction 2

User

Please briefly help me fix the code.

Assistant Summary

Provided a minimally modified version of the original code. Corrected the compilation typo, added `<iomanip>` to fix output alignment, and updated the matrix modification functions to act directly on the global arrays rather than local temporary ones.
